he first floor's way cool
With nice music and shops
Tim Hortons and smiles
And chairs for our pops.

The emergency room entrance
Is also on one
The staff is the greatest
When sick kids do come.

My name is Jazmine
But just call me Jazz
I'm on the second floor
To share all that it has.

There's Joe's Deli and seating
Covered walkway to parking
A patio and terrace
To use down until darking.

There's a surgical center
Named for our good
Friends from Tops
Who've always been there
And whose good wishes
Don't stop.

FLOOR 4

Neonatal Intensive Care Unit

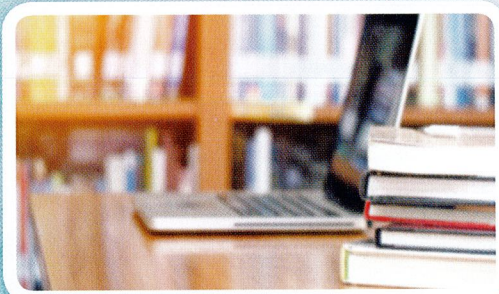

The fourth floor is special
Of that there's no doubt
It's where babies born early
Come in and chill out.

They need to get stronger
And healthier, too
The nurses and docs
Know just what to do.

The fifth floor's for family
It's all for support
With a place to reflect
Stone's Buddies-that sort.

Families who need housing
Are welcome to stay
To be close to their child
The Ronald McDonald™ way!

The sixth floor's mechanical
All stuff we can't see
It keeps all things running
And that's important to me.

The seventh floor's next
Thanks to The Buffalo News
It has infusion and dialysis
And pharmacy to use.

My name is Vinny
(Good thing I like heights)
The eighth floor's so high
Be neat for some kites!

The mother-baby unit
Takes up this whole floor
Private rooms for the moms
Where they'll give cuddles galore!

IMAGINATION

FLOOR 11

Medical/Surgical Unit

ooks like the 12th floor
Is all up to me
Because I have cancer
I'm the authority.

The right teams are in place
To treat all kinds of cancers
They have crazy smart docs
Who work hard to find answers.

Also on twelve is
The epilepsy unit
Evaluation and therapy
Are all that go in it.
